PRAVEENKUMAR MOKASHI

ECE UNDERGRADUATE | CYBERSECURITY & CLOUD SECURITY

Bengaluru, India • thepraveenm09@gmail.com
LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Electronics and Communication Engineering undergraduate with a focused interest in cybersecurity, cloud infrastructure and secure systems. Building foundational skills in Linux, Python, networking and cloud technologies through coursework, independent learning and hands-on practice. Interested in internship opportunities that offer practical exposure to security operations, infrastructure security and cloud environments.

TECHNICAL SKILLS

Cybersecurity	Cybersecurity fundamentals, information security, cryptography fundamentals, security risk awareness
Systems & Networking	Linux, Windows, computer networking fundamentals, command-line environments
Programming	Python, C programming fundamentals
Cloud & Tools	AWS fundamentals, Oracle VirtualBox, Ubuntu, Kali Linux

SELECTED ACADEMIC PROJECTS

AI-Based Network Attack Forecasting

Academic project exploring the use of AI/ML concepts to identify patterns associated with potential network attacks.

Fake Social Media Account Detection

Academic project focused on identifying suspicious or inauthentic social media profiles using data-driven techniques.

Online Payment Fraud Detection Using AI

Academic project investigating AI-based approaches for recognizing potentially fraudulent online payment activity.

Smart Bharat AI

Academic project exploring an AI-based solution concept for a real-world problem.

Hospital Management System

Academic software project focused on organizing and managing hospital-related information and workflows.

CERTIFICATIONS & LEARNING

- Google — Foundations of Cybersecurity
- Google — Play It Safe: Manage Security Risks
- Cisco Networking Academy — Introduction to Cybersecurity
- Infosys Springboard — Fundamentals of Cryptography
- Infosys Springboard — Foundations of Cybersecurity
- Infosys Springboard — Fundamentals of Information Security
- Ethnotech Academy — Python Programming I & II with Linux

ACTIVITIES & PARTICIPATION

Learn with Community — GDG on Campus, UVCE: Participated in the community learning initiative. Interested in collaborative learning, technical communities and peer knowledge-sharing.

EDUCATION

B.E. — Electronics & Communication Engineering **Expected 2028**
East West Institute of Technology (EWIT), Bengaluru
Autonomous institution affiliated with Visvesvaraya Technological University (VTU)
